

# MAXWELL WILLIS

Publication Designer | AI-Native Creative Technologist | QA Automation Engineer | CAD / 3D Specialist

Frisco / Plano / Dallas-Fort Worth, TX · (214) 986-4044 · iamaxwellwillis@gmail.com

[LinkedIn](#) · [GitHub](#) · [Publication Portfolio](#)

## SUMMARY

Multidisciplinary publication designer and AI-native technologist with experience transforming complex civic, business, and technical information into polished, accessible, stakeholder-ready publications and interactive review systems. Combines publication graphics, editorial layout, data visualization, React/Next.js, QA automation, AI-assisted workflows, Rhino/XNURBS CAD surface modeling, and 3D printing to support high-quality communication, decision-making, and production execution.

## CORE STRENGTHS

### Publication & Editorial

Publication graphics, report/editorial layout, budget books, stakeholder review systems, presentation design, accessibility-aware information design

### AI / Software / QA

AI-assisted development, React, Next.js, TypeScript, Python, QA automation, API testing, Playwright, pytest, bug documentation

### Data & Visual Systems

Data visualization, chart systems, infographic design, icon libraries, visual hierarchy, design systems, cross-functional review workflows

### CAD / 3D / Fabrication

Rhino 3D, XNURBS CAD surface modeling, 3D modeling, 3D printing, geometric problem-solving, design-to-production workflows

## SELECTED PUBLICATION / DESIGN WORK

### City of Plano Budget & Research Publication Modernization — [Interactive Review App](#)

- Contracted through Insight Global for the City of Plano, supporting modernization of a public-facing budget and research publication system.
- Built a production design system for a 444-page civic publication, including reusable layouts, chart/cover components, iconography, and accessibility-aware information design.
- Designed and shipped a mobile-responsive React/Next.js review app on Vercel for stakeholder selection, persistence, and JSON export of design decisions.
- Scripted repetitive production tasks to improve consistency, speed, and review quality across a large-scale publication workflow.

### Publication Portfolio — Public-Facing Report & Visual Communication System

- Curated publication work into a responsive portfolio experience with downloadable reports, visual previews, and structured project storytelling.
- Focused on clarity, hierarchy, and executive readability for long-form reports, strategic forecasts, CIP materials, dashboards, and stakeholder-facing communication.

## SELECTED TECHNICAL PROJECTS

### Pymation QA Automation Portfolio — [GitHub Repository](#)

- Built a QA automation portfolio with 18 test files and 260+ test cases across API, UI, AI/ML validation, Flask API, and CRUD workflows.
- Created test plans, bug reports, coverage documentation, screenshots, and CI/CD documentation for repeatable technical review.

### HorizonOps Predictive Intelligence Platform — [Live Prototype](#)

- Created a FastAPI/React operational intelligence prototype with telemetry APIs, machine health endpoints, prediction feedback loops, and dashboard workflows.
- Defined validation strategy across unit tests, API/data-pipeline integration tests, model validation, Playwright checks, and load testing.

## PROFESSIONAL EXPERIENCE

### AlexanderArt — Independent AI Engineer & Creative Technologist · Dallas–Fort Worth, TX · Jan 2021 – Present

- Create publication, brand, web, automation, QA, and technical design systems for business, civic, and creative use cases.
- Translate stakeholder goals into polished visual systems, technical prototypes, documentation, AI-assisted workflows, and deployed web experiences.
- Apply Rhino 3D, XNURBS CAD surface modeling, 3D modeling, and 3D printing experience to prototyping, fabrication-aware design, and geometric problem-solving.

### Insight Global — Publication Designer / Interactive Review App Builder, City of Plano Contract · Plano, TX · Mar 2026 – Jun 2026

- Supported Budget and Research publication modernization from discovery through interactive review tooling and production design system delivery.
- Delivered high-quality stakeholder-facing assets while coordinating publication layout, visual consistency, and usability across a large document system.

### SW Consulting — IT Business Analyst · Remote / Dallas–Fort Worth, TX · 2018 – 2021

- Partnered with engineers and product owners in Agile/Scrum environments to gather requirements, manage backlogs, support QA, write acceptance criteria, assist UAT, and retest defects.

## TOOLS & TECHNOLOGIES

Adobe Illustrator, Photoshop, InDesign, After Effects, Acrobat Pro · PowerPoint · Figma · HTML/CSS · React · Next.js · TypeScript · Python · Flask/FastAPI · Git/GitHub · Vercel · Playwright · pytest · Postman · Rhino 3D · XNURBS · Blender · 3D printing workflows

## EDUCATION & CERTIFICATION

Baylor University — B.S., Health Sciences (Kinesiology) · Division I Track & Field Athlete

Careerist — QA Automation Engineer Certification, 2026
